ORIGINAL TRANSCRIPTION

Narrative: Adult female, with abdominal pain, we we found sitting up, alert and oriented or no apparent distress or a little distressed, rather in her living room. She found her in good color and then to that extremity. She complains of abdominal pain that began the day before and has since been increasing in severity. She describes the pain is cramping. And she writes the pain at a seven out of ten patient, endorses both nausea and vomiting, but denies chest pain and shortness of breath should not, as Hemet Hemet Amedisys entire area for vital signs as follows. She has a heart rate of 86 respiratory rate of 18 blood pressure of 193 over 77 and she's learning wine of the Glasgow Coma score 15 blood glucose level of 147 oxygen oxygen, 97 % on room air, her 12-lead showed sinus rhythm with outstanding or other ectopy. We've initiated an IV given a saline bolus and formula mg of ondansetron and with a company Treatment in patient condition,
